

## PRESS RELEASE

Acknowledging the existence of a video that is linked, indirectly, to our company ElPozo Alimentación, with animal abuse issues, we want to inform anyone interested that **our company censors and condemns this behavior, characteristic of savages and barbarians and rejects any form of animal suffering, completely alien to our ways.**

Given these facts, we state the following:

1<sup>st</sup> ElPozo states clearly and emphatically that ElPozo has absolutely nothing to do with the very despicable actions carried out by the people featured in the video released.

2<sup>nd</sup> The actions are not carried out in any facility owned by ElPozo. However, and as a precautionary measure, ElPozo has demanded that supplier farms immediately cease any relationship with this farm until the facts are clarified.

3<sup>rd</sup> Having contacted the true owner of this farm, he has shown us that he complies with all animal welfare norms, with the technical and human resources necessary for the proper functioning of its business, and that what happened is due to an act of revenge by an isolated group of disgruntled workers of the farm.

4<sup>th</sup> Our company is characterized for adopting all the standards of quality in animal health and welfare, ensuring its strict compliance. ElPozo Alimentación's main differentiating factor is its commitment to customer service. From this maximum, and from its beginnings, we have introduced a pioneering Integrated Process Control (IPC), which consists of a tracking system that allows you to directly monitor all activity and ensures the entire production chain control from raw materials to the final solution that reaches the consumer. This monstrous act, which is brutal and cruel, is an isolated incident and shows evidence of bad intentions by a group of heartless people. ElPozo has no connection with them, and cannot and should not allow its good name be tainted.

5<sup>o</sup> ElPozo has informed the Police of the vile actions referred to above in order that the perpetrators are brought to justice immediately.
